

Performance Note
SB0183 - Uniform Criminal
Records Accuracy Act
Sponsor: Sen. Hillyard, Lyle W.

Performance Note Report

Author: Joe Brown

Agency: Department of Public Safety

Funding For:

New Services or Benefit

Public Benefit:

Purpose: To provide a central repository to be responsible for statewide criminal information and to ensure accuracy of that information and to disseminate that information to the public.

Services: -Provides dissemination logs to be kept; -Requires the repository to correct information; -Creates a mistaken identity prevention registry; -Provides for specific audits.

Expected Outcome: To provide individuals with correct criminal records information available to both agencies seeking background checks and individuals that are subjects to the background check and to correct information as soon as available and make those corrections available to entities and persons as outlined in the bill.

Implementations and Resources: This bill will be implemented by extensive DTS reprogramming of BCI's databases, keeping dissemination logs, providing individuals with records whenever their information is accessed or changed, and by creating two new sections at BCI to perform the requirements as listed in the bill. It is estimated BCI will need approx. 41 new people to implement the provisions of this bill and that such implementation will not occur for at least 1.5 to 2 years after the bill has passed.

How: Implementation will take substantial General Fund appropriation both ongoing and one-time.

Performance Measures

Goal

Title: Accuracy of records and dissemination of those records in accordance with the new provisions of this bill and creating a Mistaken Identity Prevention Registry.

Description: Use state resources to fund new FTEs that will obtain information from various agencies, update and verify as much as possible criminal records and non criminal records of individuals and disseminate those records to everyone that is the subject of a background check.

Collection Method: The only measurements would be those of performing duties once requests are made. Performance would be measured then by how much time it would take to meet the demands placed upon BCI by the new requirements of this bill and if letters have been sent to all those as required under the bill.
